Piping foreman jobs in uae

We are seeking an experienced Construction Manager for various positions throughout the UAE, including Dubai, Abu Dhabi, and other locations across the GCC region. The ideal candidate will have a degree in Mechanical Engineering or a related field and a minimum of 10 years of experience in Offshore Pipeline Design & Construction. Responsibilities include overseeing construction projects from start to finish, ensuring compliance with contract requirements and design specifications. The successful candidate will also be responsible for planning and coordinating all construction activities, monitoring project execution, and ensuring that all phases of the project are completed on time and within budget. Requirements vary by position but typically include a strong background in construction management, project leadership skills, and experience working on large-scale projects in the Oil & Gas (EPC) industry. The ideal candidate will be able to work independently with minimal supervision and have excellent communication and problem-solving skills. We are looking for an experienced Construction Manager who can lead teams of professionals to successfully complete complex projects. The ideal candidate will have a strong understanding of construction management principles, project planning, and execution techniques. They should also have experience working on multiple projects simultaneously and be able to prioritize tasks effectively. In addition to technical skills, we are seeking candidates with excellent communication and interpersonal skills, including the ability to work effectively with clients, contractors, and other stakeholders. The ideal candidate will also have a strong understanding of safety protocols and procedures, as well as experience with project management software and tools. We offer competitive salaries and benefits packages, as well as opportunities for professional growth and development. If you are an experienced construction manager looking for a challenging and rewarding role, please submit your application today. The successful candidate will be responsible for coordinating and monitoring construction activities, both day and night shifts, to ensure compliance with project specifications and safety protocols. Additionally, they must comply with relevant safety, quality, and environmental management policies. The ideal candidate should have a minimum of five years of experience in heavy industrial projects, such as shipyards or refineries, and be proficient in applicable safe working practices and quality standards. They will also need to effectively interact with multinational workforce, project team members, clients, subcontractors, and other employees. Requirements include good communication and commanding skills, ability to manage multi-national workforce, and experience with reviewing TRA procedures and HSEQ requirements. Note: The rewritten text is a paraphrased version of the original job description, maintaining the same meaning but using different words and phrases. We are seeking an experienced Steel Fixer Foreman to join one of our clients' construction teams in Dubai, UAE. The ideal candidate will have a strong background in steel fixing and a proven track record of leading teams to successfully complete projects on time and within budget. Additionally, we are looking for candidates with various qualifications and skills for different positions in the Marine Ship Repair industry. These include installation, maintenance, and repair roles requiring high school or equivalent education, ITI/vocational training, diploma, or graduate degrees. To get a job in UAE, you must have accreditation alongside a certificate with specializations in a specific field of work. A high school diploma may also be considered in some cases. Previous working experience is regarded as an added value. You should be skilled enough in your chosen field and proficient in English, Hindi, or Arabic for effective communication. To increase your chances of getting a job in UAE, you can upskill yourself, apply to the latest job vacancies on free-of-cost platforms like Skillbee, and adapt to the culture with good communication skills. The required qualifications may vary depending upon the field of work and company requirements. Any individual over 18 years old is eligible for employment in UAE. Job Title: Various Positions in Marine Ship Repair Qualifications: - High School & Equivalent - Higher Secondary School & Equivalent - ITI / Vocational - Diploma - Graduate Skillset: Marine Ship Repair and new build experience Jobseekers: Open to candidates from any GCC country and Asian countries In the UAE, residence visas and licenses are easily obtainable for expats. While English proficiency can be beneficial, it's not always necessary. Those who speak Hindi or Arabic may find better job opportunities. Q: What types of licenses are required to work in the UAE? The Ministry of Human Resources and Emiratisation (MoHRE) issues these licenses. Companies must apply to MoHRE for a work license. Once in the UAE, expats can apply for a resident visa, usually securing a job before arrival. Q: What is the work schedule in UAE? UAE working hours differ from other countries. Private-sector employees work 8 hours/day or 48 hours/week. Public sector employees get 7 hours/day and 30 days of annual leave after one year. Working hours are reduced during Ramadan, and workers must take breaks. Q: Which jobs are the highest paying in UAE? Salary varies by profession and company. The UAE offers high-paying jobs for certain professions. Q: What are the working laws to work in UAE? To work in the UAE, expats need a UAE employment visa and work permit. MoHRE issues these permits. Work permits require periodic renewal every 30 days until a residence visa is secured within 60 days. Moving to UAE for a job? Be prepared to undergo driving lessons and tests, and obtain a new driver's license if needed. Familiarize yourself with the local driving rules to avoid any issues on the road. Once you have your visa sorted, you can start applying for various job openings in the country. Many expats are drawn to UAE due to its booming business sector and high salary packages. Popular areas to work include locations with a good quality of life and generous compensation. Some of these hotspots include: To find a job in UAE, research top companies that offer great working conditions and salaries competitive with your profession. Look for Best Jobs in UAE that match your skills and experience. Freelancing is also an option in UAE, allowing you to work on various projects and enjoy a tax-free lifestyle. However, make sure you have the necessary permits and licenses, including a residency visa and freelance license from a Free Zone. This will enable you to operate legally as a freelancer. As a freelancer, your earnings depend on your industry and expertise. You can also start your own business if you possess strong communication skills and relevant work experience. To find job openings in UAE, consider using free-of-cost platforms like Skillbee, which connects job seekers with trusted companies without any commission charges. Download the app from Google Play Store, create an account, and upload your resume and work details to get started.
