But when it comes to sharing the spoils, the answer is clear: thou shalt share with those who have earned their place at the table.But what does it mean to share? Does it mean to divide equally among all, like unto brothers and sisters in equality? Or does it mean to take a fair share of the pie, leaving some crumbs for those less fortunate? The answer lies not in the definition itself, but in the intentions of those who share.In the words of the great Lion, "You may share the labours of the great, but you will not share the spoil." For if we share too freely, we risk losing ourselves in the process.And yet, there is a time when sharing becomes necessary. When the labours of the great become the burdens of all, it is then that we must step up and share the load. But even then, it is not about sharing equally, but about finding a fair balance that works for all.So let us learn from the Lion's words, but also from his actions. For when he pronounced judgment on the carcass, he did not simply divide it among himself, but rather used his authority to ensure that each quarter was given its rightful share. It is a lesson in leadership and responsibility, one that we would do well to remember.##ARTICLEI've been denied representation as a negro, but my fellow citizens still deserve equal shares.I've shared the risks and I'm willing to take on the consequences alongside others if necessary.I know I've done my part as a businessman, and men joining forces usually divide the workload more evenly; those with more power get a larger share, while those with less do so proportionally.Debray has cost me 700,000 francs - let him bear the burden; if not, he can go bankrupt for 250,000 livres like everyone else does.If shares are valued at \$100 each and there are ten thousand of them, then peace is possible, Roberts could march into Pretoria within weeks, and shares were already rising.The man is condescendingly amateurish in his handling of city affairs, attending meetings and dealing with share traffic as if it's the most important thing - after all, that's what truly matters in this world.the portion or part allotted or belonging to or contributed or owed by an individual or group.something shared or distributed among a group of people.information technology,a digital file or document that can be accessed by specific users on a computer network,the act of sharing online content with specific users on a computer network.to divide and distribute resources in proportion to one's contribution.to give someone access to information, typically by posting it online or sending it as an email attachment.to share photos or videos online.to have a part or portion of something owned or allotted to you, often plural; any of the equal parts into which the capital stock of a company is divided: ownership of shares carries the right to receive a proportion of the company's profits See also ordinary shares preference shares,informally, to share (something) with another or others.to divide, apportion, or receive equally,to give someone access to online content.To share via email.
